Pending the application of the Act, the rules have been held up. The Collector, C. & M. Station, may be requested to submit draft proposals in this regard.

Application of the Sea Customs Act, 1878

Sec.16 of the Aircraft Act provides for the application of all or any of the provisions of the Sea Customs Act, 1878, to the import or export of goods by air, by a notification of the Governor Genneral in Council. No notification has apparently yet been issued as none is traceable in the Gazatte of India. The section may be retained so that when the Governor General in Council has, by a notification, applied all or any of the provisions of the Sea Customs Act to the export or import of goods by air in British India he may take similar action in respect of the import or export of goods by air in the Station.

5. Section 16 of the Act

The Sea Customs Act,1878, has not been applied to the Civil and Military Station of Bangalore; nor is there any necessity for its application except for the regulation, by an adaptation of its provisions, of the import or export of goods by air. Now that there is a possibility of such export or import by air, I consider that section 16 of the Act should be ~~applied~~ retained and that the necessary provisions of the Sea Customs Act should be applied to the Station with suitable modifications. I am not aware however of any notification issued by the Governor General in Council under section 6 of the Act applying all or any of the provisions of the Sea Customs Act, with or without modofications, to the import or export of goods by air ~~in~~ in British India. If any such notification has been issued, I would request that I may be supplied with a copy of it, to enable me to submit a draft notification for the application of the relevent sections of the Act to the Civil and Military Station.
